

## Data Sheet (DS) 7TM0252N

Issuing Date: 2026-06-17

|              |                                               |
|--------------|-----------------------------------------------|
| Description  | SCTR (non-phospho) Secretin Receptor Antibody |
| Format       | Purified, Liquid                              |
| Product Type | Rabbit Polyclonal Antibody                    |
| Isotype      | Polyclonal IgG                                |
| Quantity     | 100 µl                                        |

## Product Details

| Applications          | <p>This product has been reported to work in the following applications:</p> <table border="1"> <thead> <tr> <th></th><th>Dilution</th></tr> </thead> <tbody> <tr> <td>Western Blot</td><td>1:1000</td></tr> <tr> <td>Immunohistochemistry</td><td>1:100</td></tr> </tbody> </table> <p>This information is derived from testing within our laboratories and peer-reviewed publications. Please refer to references indicated for further information. For general protocol recommendations, please visit <a href="https://7mantibodies.com/7tm-antibodies-support/7tm-protocols/">https://7mantibodies.com/7tm-antibodies-support/7tm-protocols/</a>. Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.</p> |  | Dilution | Western Blot | 1:1000 | Immunohistochemistry | 1:100 |

| Western Blot          | 1:1000                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |          |              |        |                      |       |
| Immunohistochemistry  | 1:100                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |          |              |        |                      |       |
| Target Species        | Human                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |          |              |        |                      |       |
| Product Form          | Purified IgG, liquid                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |  |          |              |        |                      |       |
| Antiserum Preparation | Antiserum to human SCTR was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |  |          |              |        |                      |       |
| Immunogen             | A synthetic peptide corresponding to distal end of carboxy-terminal tail of human SCTR.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |  |          |              |        |                      |       |
| Storage Buffer        | Dulbecco's PBS, pH 7.4, with 150 mM NaCl, 0.02% sodium azide                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |  |          |              |        |                      |       |
| Specificity           | The non-phospho SCTR receptor antibody is directed against the distal end of the carboxyl-terminal tail human SCTR receptor. It can be used to detect total SCTR receptors in Western blots independent of phosphorylation. It can also be used to isolate and enrich SCTR receptors from tissue lysates. It also detects SCTR in cultured cells and tissue sections by immunohistochemistry.                                                                                                                                                                                                                                                                                                                                                                                                                                                    |  |          |              |        |                      |       |
