

Data Sheet (DS) 7TM080A

Issuing Date: 2020-04-28

Description	pS350/pT352-ACKR3 (phospho-Atypical Chemokine Receptor 3 Antibody)
Format	Purified, Liquid
Product Type	Rabbit Polyclonal Antibody
Isotype	Polyclonal IgG
Quantity	100 µl

Product Details

Applications	This product has been reported to work in the following applications:	
		Dilution
	Western Blot	1:1000
	This information is derived from testing within our laboratories and peer-reviewed publications. Please refer to references indicated for further information. For general protocol recommendations, please visit https://7tmantibodies.com/7tm-antibodies-support/7tm-protocols/ Suggested working dilutions are given as a guide only. It is recommended that the user titrates the product for use in their own system using appropriate negative/positive controls.	
Target Species	Human, Mouse	
Product Form	Purified IgG, liquid	
Antiserum Preparation	Antiserum to Atypical Chemokine Receptor 3 was raised by repeated immunization of rabbits with highly purified antigen. Purified IgG was prepared from whole serum by affinity chromatography.	
Immunogen	A synthetic phosphopeptide derived from human ACKR3 around the phosphorylation site of Ser350/Thr352.	
Storage Buffer	Dulbecco's PBS, pH 7.4, with 150 mM NaCl, 0.02% sodium azide	
Specificity	Serine350/Threonine352 (S350/T352) is major phosphorylation site of the Atypical Chemokine Receptor 3 (ACKR3, previously called CXCR7). The pS350/pT352-ACKR3 antibody detects phosphorylation in response to agonists and after PKC activation. S350/T352 phosphorylation is required for efficient ligand sequestration by ACKR3.	
Guarantee	12 months from date of dispatch	
Storage	Store at -20°C. This product should be stored undiluted. Avoid repeated freezing and thawing as this may denature the antibody.	
Regulatory	For research purposes only	
Health and	Material Safety Data Sheet documentation is available at
